Location: Algeria (EU Blue Card Eligible)

Production Infrastructure · Cloud Video Pipelines · Multi-Tenant SaaS

<2s Streaming Latency RTSP to HLS Pipeline	0% Archive Frame Loss Thread-Safe Ring Buffer	58 Wilayas Automated DZ Logistics Network	7 Systems Shipped Production Enterprise
---	--	--	--

PRODUCTION SYSTEMS SPECIFICATIONS

System / Product	Architecture & Key Innovation	Tech Stack
Cloud VSaaS Pipeline Video Surveillance	Dual-pipeline video bridge (RTSP → FFmpeg → HLS & Ring Buffer). Sub-2s streaming latency with zero frame loss.	Python, FFmpeg, MinIO S3, Docker, React
RManager SaaS Multi-Tenant POS	Multi-tenant repair shop management with PostgreSQL Row-Level Security (RLS) & native ESC/POS thermal printing.	FastAPI, PostgreSQL RLS, React, ESC/POS
Jibli Delivery Platform Logistics Engine	Real-time courier dispatch with WebSocket state machine, proximity matching, and offline-first SQLite sync.	Flutter, WebSocket, Python, SQLite
Health Monitor IoT Medical Telemetry	IoT patient telemetry dashboard with real-time biometric anomaly thresholds and WebSocket broadcast.	ESP32, Python, WebSockets, Chart.js
DZ Lead Gen Engine Scraping & Lead Pipeline	Distributed B2B lead discovery tool mapping 58 wilayas with automated phone verification & CSV export.	Python, Playwright, Pandas, BeautifulSoup
DocsGuards Scheduler Medical Roster	Stateful fairness-guaranteed round-robin algorithm with holiday memory for doctor on-call shifts.	Python, Flask, Round-Robin Engine

TECHNICAL STACK & RELOCATION ELIGIBILITY

Backend Systems: Python (FastAPI, Flask, SQLAlchemy), Node.js, REST APIs, WebSockets, PostgreSQL, SQLite	Mobile & Frontend: Flutter & Dart, React 18, TypeScript, React Native, Expo SDK 54, TailwindCSS, Zustand
Infrastructure & Cloud: Docker, Nginx, MinIO S3, Supabase, Cloudflare, FFmpeg, Linux Systems Administration	Systems Design: Offline-First Arch, Multi-Tenant RLS, IoT Telemetry, Event Queues, Proximity Logistics

ENGAGEMENT MODEL & INTERNATIONAL MOBILITY

Engagement Model: Available for high-complexity contract engagements, technical architecture consultation, and full-stack system execution.
Visa & Relocation Status: Based in Algeria — Open & Ready to Relocate. Eligible for EU Blue Card (Germany/EU), Passeport Talent (France), Skilled IT Shortage Fast-Track, and Global Talent / Express Entry.
